E-Commerce Business Plan

1: Introduction \*

An E-commerce website focused on furniture sales aims to provide customers with an easy and reliable way to purchase furniture online. The platform will cater to users who want modern, customizable, and high-quality furniture for their homes or offices. It will integrate seamless user experiences, payment methods popular in Pakistan and festival-based sales and discounts.

2: Business Goals \*

Provide high quality furniture that is accessible online. Ensure smooth users experiences through a user-friendly interface. Create trust by integrating secure payment methods, offer discounts and promotions during festivals and sales events.
